OUR PROGRAMS

Residential Programs

Residential Programs are offered to organizations to nominate their senior resources for offsite learning. These programs are generally conducted at a historical or tourist place within or outside the country under stress free environment.

We offer these programs majorly to PSUs, Corporates and Government departments on various topics connected to their needs and challenges. The participants get cross learning, Industry best practices, rejuvenation and greater satisfaction through these programs.

In House Trainings

In House Training programs are conducted at company's premise where employees from one or more departments participate to learn topics of common interest. These training programs are customized, focused, result oriented and addresses burning issues of the work place.

Organization does great saving of time, money and productivity by conducting such programs within their premises. We deliver these trainings on a regular basis for national and global clients at PAN India.

Open Workshops

Open workshops are conducted on various topics of common interest at major cities of the country where participants come from multiple organizations. These workshops impart relevant skills and solutions to the common problems of the work place.

This mode of learning is highly useful for the self- growth and development of the participant. These workshops are conducted on a regular basis across the country.
